

jobid=6A1B0A63002400307B160B65&wait=20 Server Output - DTU Health Tech

Asn-Xaa-Ser/Thr sequons in the sequence output below are highlighted in blue.
Asparagines predicted to be N-glycosylated are highlighted in red.

Output for 'Sequence'

#####

Warning: This sequence may not contain a signal peptide!!

Proteins without signal peptides are unlikely to be exposed to the N-glycosylation machinery and thus may not be glycosylated (in vivo) even though they contain potential motifs.

SignalP-NN euk predictions are as follows:

#	name	Cmax	pos ?	Ymax	pos ?	Smax	pos ?	Smean	? D	
Sequence		0.148	50	0.117	50	0.119	12	0.098	0.107	N 0.450

SignalP-noTM

SignalP output is explained at <https://services.healthtech.dtu.dk/services/SignalP-4.1/>
